

### **Mediterranean Olive oil Salt Scrub:**

I love the Mediterranean Olive Oil Salt Scrub! I have trouble with dry skin and after using the scrub my skin feels so soft and silky. I haven't had any problems with red, itchy, dry skin since I started using this wonderful product. **Dawn Metty-Relyea, USA**

I had a get together at my house the other day and took out my scrub. Everyone was so amazed by the non-greasy feel and how soft and moisturized their skin felt. I sold to two of them and only three tried it. **Eric-Tatum Shepherd, USA**

Olive Oil Salt Scrub is AMAZING to shave your legs with! Smoothest shave, no "chicken skin" afterwards and my legs stay smooth and silky longer. **Sheryl Tughan, Canada**

### **Timeless Foot Lotion:**

I adore the tingly wonderful feeling of the Timeless Foot Lotion! Sometimes I awaken with Restless Leg Syndrome and when I use the lotion it soothes my legs and calms me enough to sleep. **Ginger Engels, USA**

LOVE the Timeless Foot Lotion! It has a gentle relaxing smell. I use it after I use the Body Cloth on my feet. With a husband that likes my feet to look nice and pretty, it's annoying to put lotion on and then walk in heels. Talk about slip and sliding...but not with Norwex! It makes my feet look brand new again. This has also saved me money since I no longer need the callus remover for my pedicures. **Morgan Thelen-Payden, USA**

### **Foot Stone:**

One of my favourite Norwex products would have to be the Foot Stone. As bad as it sounds, I have lived my whole life with dried and cracked heels. It was embarrassing and so painful that it would stop me from doing certain things. I had tried everything, nothing worked. I began going to the spa and that helped, but I had to go every three weeks to keep it up. I bought this stone and it changed everything! The moment I used it, I knew I found what I had been looking for. Nothing removes dried skin like this. Because of this product I hardly have to go to the spa at all anymore which is saving me money every month. You've got to love that! **Sharon Tucker, Canada**

Banish winter heals and bring on the summer sandals! **Sheryl Tughan, Canada**
