

Window Cloth and Enviro Cloth:

These two cloths are amazing and are best friends! When working side by side they can clean and polish anything in the home! Not to mention how fast I clean my house now and everything stays cleaner longer! These are the first two must have items to purchase when starting your Norwex collection.

Meigham from Illinois, USA

Absolutely Amazing! The first time I used the Window Cloth, I could not put it down. After cleaning my house with it I literally knocked on my neighbors door and cleaned her front windows and mirror too! Now my whole neighborhood uses Norwex!

Shellie from California, USA

I love my Enviro and Window Cloths because they allow me to clean safely around my beloved parrot.

Cindy from Albert, CANADA

My windows have never been so clean. I love that when my kids are licking the windows, I know they are not licking all those toxic chemicals.

Sharon from British Columbia, Canada

They made my life a lot easier...cleaning is a breeze with lots of results for little effort!

Kim from British Columbia, Canada
