

*Marilyn use the Naturally Timeless on ½ of her face for 6 weeks:*

**Here is my Norwex Facial Regimen:**

1. I begin by cleansing and exfoliating, using only water, with one of the Norwex Body Pack cloths (these cloths even remove water proof mascara with just water).
2. I apply the Norwex Face & Neck Gel - which tones, hydrates and softens my skin with a rejuvenating composition. It is also awesome used on sun burns and my husband loves it as an aftershave.
3. I then gently apply the Norwex Lifting Serum (all over my face) minimizing my wrinkles, promoting elasticity and skin vitality. I let the serum sit for a few minutes before moving to the next step.
4. For day time - I then apply the Norwex Day Cream to add moisture and loads of anti-oxidants for healthy fresh looking skin. At night - I apply the Norwex Night Cream to add moisture and replenish the look and feel of my skin.

What I love most about these products is that a little goes a long way because they are very concentrated and I don't have to worry about dangerous ingredients that can lead to many health problems. Since introducing the lifting serum into my skin care routine I have had two facials done by an Esthetician and each time I was told "whatever it is that you are doing for your skin...**Keep It Up**".
