Save time, money, and the environment by using the Microfiber EnviroCloth to transform your home into a safe haven. Removes dust, dirt and grease from most surfaces with only water—no chemicals! Plus, Norwex Microfiber has the ability to remove up to 99% of bacteria from a surface. Ideal for cleaning any room—our super-absorbent EnviroCloth picks up dust particles and traps them in the cloth until you rinse it out. Then, the BacLock®\* in the cloth goes to work to self-purify and inhibit odours from bacteria, mold and mildew growth within the cloth. So take advantage of this amazing offer and discover why the EnviroCloth is one of our most popular and versatile products.

Orders must be submitted to the Home Office from noon, CST, January 1, 2018 through noon, CST, February 1, 2018. Limit one per qualified Customer, Web, Personal Supply and Bulk / Party Order. Norwex reserves the right to substitute items based on inventory availability. \*Contains BacLock®, an antibacterial agent for self-cleansing purposes only. The agent is solely designed to inhibit odor from bacteria, mold and/or mildew growth within the product.
